- Islam- Learning about the festival Eid ul Fitr.
- Learning about the key features of a mosque.
- Holy Book- the Quran

## British Values

- Individual liberty - E-safety
- Mutual respect and tolerance -

## Overview

We begin our term with a winter walk and we will use our senses to create adjectives. We will then use this to create winter poems. We will then begin our topic 'How to catch a star', through Talk for Writing. We will be changing the story and writing our own version. They will investigate the past by looking at different sources to learn all about the first moon landing. Children will then use what they have found out to create their own information page. Finally they will have a visit from a visitor from outer space who will want to find out about the local area and where we live. Special days/weeks involve 'well-being week', the Chinese New Year and World Book week.

## Geography

The children will be learning about:

- Maps and using a key
- The location of the school and a map of the school
- Human and physical features
- Our address and where we live
- A map of the UK
- Continents
- Comparing the UK to a contrasting location
